

STEPS Engineers Week, the annual campaign to inspire the next generation of engineers and excite students about the possibilities a career in Engineering can offer, is set to take place nationwide from **Saturday, 27 February – Friday, 5 March 2021.**

In advance of this week, there is a **Webinar, this Friday 26th February 11-12o’c** hosted by a Civil Engineer at PUNCH Consulting Engineers, to help Students understand what Engineering is about, how it relates to School/Subjects as well as looking at the many exciting opportunities available in this, and STEM areas.

Please Register your Interest on the (free) Eventbrite link attached.
