Recruitment process: At Bus Éireann, you'll find the recruitment process friendly, easy to use and designed to ensure quality. Start your application by clicking on the links on this page in March. They use a number of assessments to predict your suitability for an apprenticeship. This includes online and supervised assessments and an interview. They require satisfactory references from your previous employers and finally a pre-employment medical examination. They are especially welcoming female applicants.

2.

Apprentice Mechanical / Automation

If you are interested in contributing to an industry which improves the lives of patients why not consider joining the **Mechanical/Automation Apprenticeship programme** in Newbridge. Please note applications will close on 26th March 2021. Situated in Co. Kildare, Pfizer Newbridge is an integral part of the global solid oral dose network; manufacturing tablets and capsules for world markets using highly complex processes. *The successful candidate(s) will commence employment in September 2021.* For Further Information and Application details click on
