

The School Self - Evaluation Committee are piloting a new student leadership role this year with First year students. **Student Leaders of Learning** will be in every first year class across the subject range. The role of a **Student Leader** is to support the teacher in the classroom; this might be managing the resources (getting equipment in PE/ giving out sheets in Geography/ keeping spare copies for teachers with no room), supporting other students in catching up on missed work, uploading information to Google Classroom and being a link between the students in the room and the teacher.

First Year students volunteered for the role of **Student Leader of Learning** in their chosen subject. Every student was asked to apply for at least one role. The new **Leaders of Learning** have now been chosen and have started their new role .
