

SHOW PASSION TO KICK OUT FAST FASHION

Many people have been affected directly and indirectly by the severeness of fast fashion on their lives.

About 1.4 million peoples health are affected by fashion each year.

5 Key Problems With Fast Fashion

- Low Quality
- Negative Environmental Impact
- Material Waste
- Unsafe Working Conditions
- Negative Impact on Developing Countries

Apps like depop, vinted, done deal and many more are useful ways to buy fashion for cheap without the use of fast fashion.

By Dion O'Sullivan, David Rossiter and Rian Duane.

Here is what you can do right now to reduce fashion pollution:

1. Buy less and more durable clothes, choose slow-fashion
2. Avoid fast-fashion companies and support small local businesses instead
3. Rent clothes you're only likely to wear once
4. Buy pre-owned items
5. Swap clothes with friends
6. Repair and upcycle your clothes
