What is College Awareness Week?

College Awareness Week is a national campaign which aims to promote the benefits of going to college, to help students of all ages to become college-ready and to showcase local role models.

Why get involved?

Going to college is becoming more and more important. A college education helps students to fulfil their potential, allows them to undertake a course of study which can be both fascinating and challenging, and helps them to secure employment and decent living standards in the future. Individuals and society benefit from increased levels of educational attainment. Play your part in inspiring the next generation of college students and helping them to become college-ready!

Things to Do : Have a **look at the Activity Suggestions** for some ideas and inspirations....
