

Online Learning - Skills - Events May 2020

- **Course 1:**

Description:

Introduction to Computer Science: HTML and CSS

An Online single day summer camp open to all second-level students. The camp runs from 10 am to 3 pm.

This introductory Online Summer Camp will consist of::

- Introduction to the group and format
- 1-hour online tutorial, recorded
- 3hours to build a project
- Last half students submit projects
- 5 pm winners announced

The Camps are open to all beginner students, who wish to experience Computer Science.

This camp assumes no prior experience!

Camp format details:

We will use Microsoft Teams to run the event, where we will meet up at 10 am and

introduce the CSinc team for about 15 minutes. From there we will run an hour tutorial on HTML and CSS, which will be recorded. Then the students will be assigned a website project. They will then have three hours to build a website and send us the final hosted link! This is done between 2:30 and 3 pm. Then the students are finished, where the CSinc team will decide on some winning projects (under specific categories) and these will be announced at 5 pm!

All of the online tools are free and work on any device!

Any questions please contact the team!!!
